

Rabbit Cage or Hutch: these will differ. You need to find one that fits best for you. They need to be easy to clean and off of the ground to keep away from predators.

Travel carrier: You will need something to transport the rabbits to the show in to prevent injuries to the rabbits. This will also keep them clean and away from their urine and feces. Judges are not very fond of urine soaked rabbits. The carrier needs to hold their toes up off the ground (ex: cardboard box with wood shavings, pet carrier, or rabbit cage with double bottom).
